Lacombe, LA.—Northshore Technical Community College and the Northshore College Enhancement Foundation have again awarded a record number of scholarships to Northshore Technical Community College students for the 2021-2022 academic year. The scholarships support incoming and returning students from each of the college’s campuses in St. Tammany, Tangipahoa, St. Helena, Washington, and Livingston Parishes. Scholarship recipients and donors were recognized at the annual Chancellor’s Sunrise Breakfast on April 1, 2021. Keynote speaker **Joan Coffman, President & CEO of St. Tammany Health System**, expressed that the event was especially meaningful after such a challenging year, as we look forward with hope to the end of the COVID-19 pandemic. “St. Tammany Health System and Northshore Technical Community College have a partnership that began over 60 years ago, and together we’ve become interwoven in the fabric of the northshore region,” said Coffman, adding that St. Tammany Health System provides clinical opportunities for NTCC’s practical nursing students, as well as students in other health sciences programs, medical office assistant, information technology, and electrician students.

“The road to college success for many is a straight path, while for others it holds twists and turns due to life experiences,” said **NTCC Chancellor Dr. William Wainwright**. “Regardless of the path, resilience and tenacity drive success. I am humbled to introduce our scholarship recipients and the donors who support those scholarships, and to hear the donor testimonials as to why they give, which demonstrates the value and the power of education.” Wainwright was joined at the

podium by his family to present the Patricia “Patsy” Wainwright Memorial Scholarship, which was established by the Wainwright family in honor of his late mother, who stopped out of high school as a junior and later returned to school to complete her GED. “My mother’s GED made my Ph.D. possible.
