

THE ONLINE BOOKSTORE ELIBRARY

Gator Online Bookstore: Northshorecollege.TextbookX.com

What is the Online Bookstore's eLibrary and what does it contain?

The eLibrary is where the Bookstore keeps a record of all digital course materials that a student has purchased. This includes digital texts through Inclusive Access courses or purchased directly from the bookstore. To visit the eLibrary, log into the bookstore, click on the username at the top right, and then select "eLibrary."

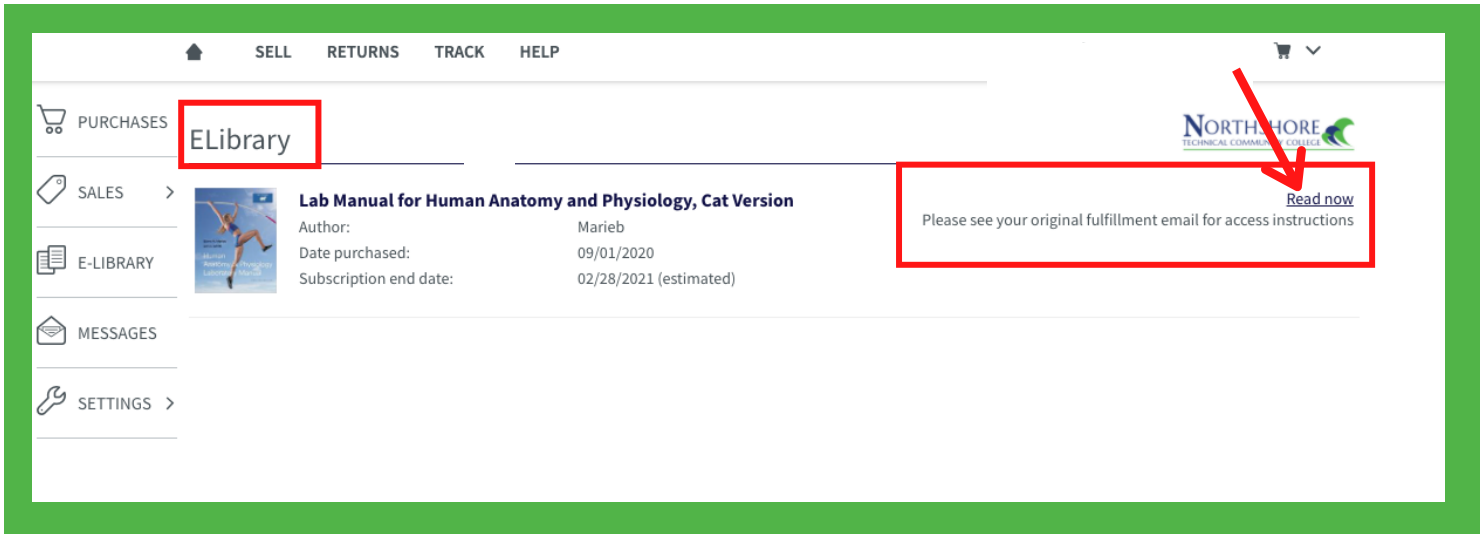

Each digital text that a student has access to is listed along with the specific details of each digital product including title, author, and access information. If students have problems accessing materials, they should contact the Online Bookstore Customer Experience team at Northshorecollege.TextbookX.com/Help.

TIPS FOR ACCESSING DIGITAL MATERIALS

Gator Online Bookstore: Northshorecollege.TextbookX.com

Redemption information for all digital course products is emailed to students in addition to being listed in the eLibrary. If students didn't save the email or didn't receive it, they can go to the eLibrary and click on "Read now" to be taken to the digital courseware platform, VitalSource Bookshelf. Once logged in, the text will appear automatically.

VitalSource is a common platform through which Northshore students access their digital course materials. Students should create one account in VitalSource for all of their digital course products. They should not create a new account for each text.

VitalSource:

Links to VitalSource texts are included in the Bookstore eLibrary along with redemption codes. If students are new to VitalSource, they should create an account. If they have used VitalSource in the past, they should access it with their old account. Redemption codes for each course are emailed to students as well as listed in their eLibrary. Students should use one VitalSource account to access all of their separate VitalSource texts.
